

**SCHOOL
THE WORLD**

Fundraise

Raise support through your social media circle! Promote your fundraising page via email/social media to have others join in your efforts in the fight for education.

Connecting the Dots

One of the most noteworthy things a volunteer can do is connect us with schools, corporations, foundations, etc. who would be interested in supporting our mission.

Lending a Skilled Hand

We are always looking for volunteers who have strong backgrounds in design, marketing, communications, tech and web development to assist our small but mighty team

Volunteer Your Time

School the World is always growing into new regions and towns each year as our support grows, but we have only made a drop in the bucket!

Chapter Leader responsibilities include driving awareness and promotion within their local communities, hosting an event, and more.

For High School and College students looking to become a Chapter Leader for their peers, email info@schooltheworld.org.

Planting the Service Seed

Teachers and parents are actively looking to get students involved in service younger than high school level. Students are also often looking for projects depending on their curriculum. We are huge advocates for service at a young age and are willing to work with these students!

Calling All Parents

Our Parent Council have first hand experience in our program through accompanying their child in Guatemala and many ideas stem from what they saw on-the-ground.
