SPONSORSHIP OPPORTUNITIES

ABOUT US

School the world is committed to disrupting the cycle of extreme poverty through the power of education. We believe all children love to learn, want to learn and are capable of learning. We believe all parents want a better life for their children and all teachers prefer motivation and achievement to apathy and failure. Nevertheless, we recognize that the complexities behind generational poverty require us to be innovative and often disruptive to change the status quo.

OUR STRATEGY

By partnering with local governments and communities, School the World turns failing schools into engines of sustainable development. Through our extensive programming, children are supported from early childhood through early adolescence with 10 years of quality education:

Early Childhood Development:

We train women community volunteers to host workshops with mothers and infants ensuring that each child arrives at school developmentally ready to learn and thrive.

Primary Schools:

Through new infrastructure (schools & playgrounds), parent empowerment trainings, teacher trainings and stocked classroom libraries, we ensure that all children achieve functional literacy.

Middle School & Alternative Schooling:

As more children complete primary school and want to continue learning, we improve access to lower secondary school with scholarships and our Alternative Schooling Program.
